

CIO-ICIEOM-IISE-AIM

International Joint Conference (IJC2016)

XX Congreso de Ingeniería de Organización

XXII International Conference on Industrial Engineering and Operations Management

International IISE Conference 2016

International AIM Conference 2016

13, 14, 15 July | Tecnun - University of Navarra
Donostia-San Sebastián (Spain)

International Joint Conference 2016 (IJC2016) “Building bridges between researchers and practitioners”

www.cio2016.org or www.icieom.org

The Conference is a forum to disseminate, to all branches of academy and industry, information on the most recent and relevant research, theories and practices in Industrial Engineering and Operations Management.

The mission of the Conference is to promote links between researchers and practitioners from different areas of industrial engineering and management, in order to enhance an interdisciplinary perspective of the field. It will be a conference of very high standards, built on the experience of previous editions of CIO, ICIEOM and IISE conferences.

We are confident that the International Joint Conference 2016 will be a unique opportunity for networking, with a high quality scientific program and an exciting social program. We are looking forward to meeting you in Donostia-San Sebastián (Spain) in 2016.

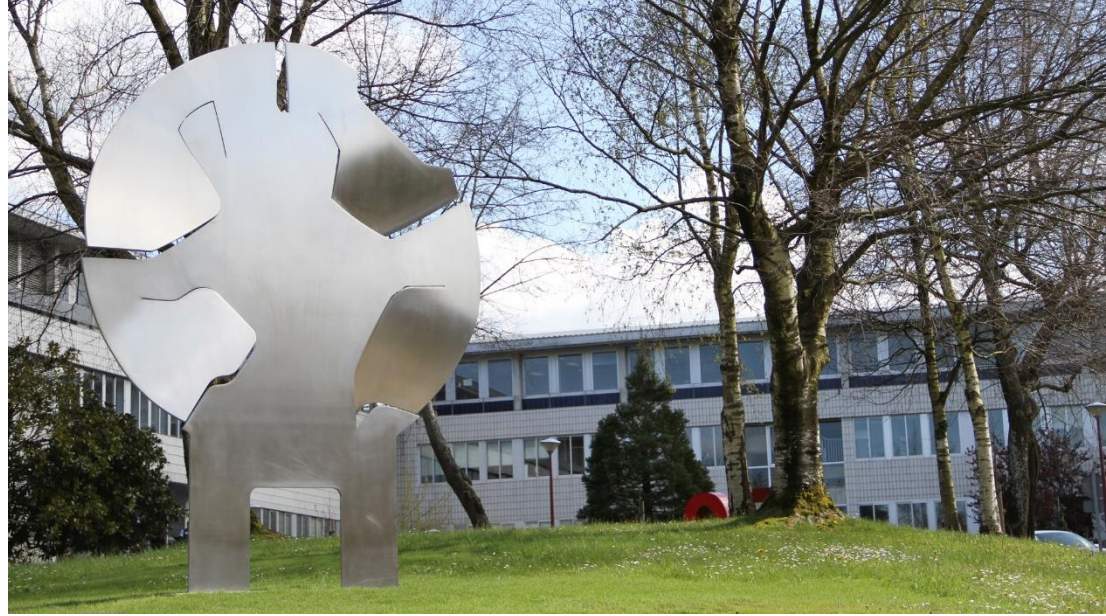

Objectives

The general objectives of the International Joint Conference (IJC2016) are:

- To promote networking between researchers as a way to exchange ideas and approaches that contribute to the development of Industrial Engineering and Management from a scientific and entrepreneurial perspective.
- To present advances in industrial engineering and operations management, and their applications to companies.
- To maintain the level of excellence of previous conferences, and to ensure that their publications (proceedings, books and journals) continue to be the best reference in this field.
- To strengthen the national and international exchange relationships between investigators from recognized universities and research institutions.

This International Joint Conference (IJC2016) brings together ABEPRO (Associação Brasileira de Engenharia de Produção), ADINGOR (Asociación para el Desarrollo de la Ingeniería de Organización), IISE (Institute of Industrial and Systems Engineers) and AIM (European Academy for Industrial Management).

Call for Papers and Submission Process

Full papers (maximum of eight pages) and extended abstracts (maximum of two pages) are the submission alternatives in 2016. Extended abstracts will only be published in the abstract book and will be included in the poster sessions. Full papers could be presented in oral sessions or poster sessions and depending on their quality, will also be published in the conference proceedings, selected journals or as book chapters.

All submissions will be double blind and peer reviewed and evaluated based on originality, technical and/or research content/depth, correctness, relevance to the conference, contributions, and readability.

All submissions to the conference will be done electronically and the author and coauthors (if any) will be able to sign up for the on-line service. Documents submitted electronically must meet editorial requirements and limits specified in the Call for Papers.

Topics

- Strategy and Entrepreneurship
- Modelling and Simulation
- Logistics, Production and Information Systems
- Quality and Product Management
- Knowledge and Project Management
- Service Systems
- Human-centered Production Systems
- Industry 4.0
- Industrial Engineering and Operations Management Education

Conference Publications

Selected full papers presented at the conference will be referred for publication in the following journals and periodical book series, based on topical match.

- ✓ *Journal of Industrial Engineering and Management* (indexed in ESCI - Thomson Reuters and Scopus).
- ✓ *Lecture Notes in Management and Industrial Engineering* (waiting for final confirmation to be indexed in Scopus).
- ✓ *Production Journal* (indexed in Scopus and waiting for final confirmation to be indexed in Thomson Reuters)
- ✓ *Management and Production Engineering Review* (indexed in Scopus, waiting for impact factor)
- ✓ *Dirección y Organización* (indexed in Scopus)
- ✓ *Int. Journal of Production Management and Engineering* (open access scientific journal)
- ✓ *Brazilian Journal of Operations and Production Management* (open access scientific journal).

Important dates

Full paper OR extended abstract submission:

Notification of results to authors:

Final versions of full papers:

29th February 2016

15th April 2016

15th May 2016
